

# Anthony Chablov

## Front-End Web Developer

**Address:** Toronto, Canada  
**Phone:** 647-920-0191  
**E-mail:** aechablov@gmail.com

**Website:** <https://www.anthonychablov.com/>  
**LinkedIn:** <https://www.linkedin.com/in/anthonychablov/>  
**GitHub:** <https://github.com/AnthonyChablov>

Resourceful Front-End Web Developer with in-depth knowledge of the latest technology trends and frameworks like React.js to produce clean, responsive, and scalable websites and web applications. Experience in handling complex HTML, JavaScript, CSS, React.js coding, design, and extensions to meet the organization's Front-End Web Development needs. Detail-oriented collaboration with team members to define project requirements, expectations, and demands. Hands-on testing and debugging to address inconsistencies and maintain performance thresholds.

## Professional Experience

### Freelance Web Developer

2022-09 - Present

*Self-employed, Toronto, ON*

- Planned website development, converting mockups into usable web presence with HTML, JavaScript, CSS, and JSON coding.
- Provided Front-End website development using React.js.
- Oversaw technical issues and troubleshooting requests to resolve user problems.
- Collaborated with clients to establish project goals, projections, requirements, and milestones.
- Built and styled new websites and landing pages that are mobile-friendly and responsive.
- Generated web hosting presence to accommodate specified needs and increased web traffic and user engagement by 100%.

## Projects

### Personal Portfolio Website

2022-10 - 2022-12

*Developer & Designer*

- Built responsive and interactive multi-page website using React-Router-Dom, React.js, React Hooks, HTML5, CSS3, SCSS, and React Toastify.
- Designed website and user interface (UI) by creating a wireframe using Figma.
- Animated page transitions using Framer-Motion.
- Cut development time by 40% by creating reusable React.js Components, Custom Hooks, and JavaScript code.

### Password Generator Application

2022-08 - 2022-09

*Developer*

- Built a responsive web application that generates a password based on selected settings of the password length and the inclusion of uppercase, lowercase, number, or symbol characters. Made using React.js, React Hooks, HTML5, CSS3, SCSS, React Toastify, and MUI.
- Utilized Context API for state management to pass data and state through the component tree.
- Decreased development time by 50% through reusable JavaScript code, React.js Hooks, and Components.

### IP Address Tracker

2022-08 - 2022-08

*Developer*

- Built a responsive web application that tracks an IP address and/or domain name and displays the location on a map. Made using React, React Hooks, CSS3, HTML5, SCSS, and React Leaflet. Data was fetched using the Fetch API from The Geolocation DB API and The Map Tiler API.
- Reduced development time by 50% by creating reusable React.js Components and JavaScript code.

## Education

### Advanced Diploma: Computer Programming and Analysis

2021-09 - Present

*Seneca College - Toronto, ON*

### Bachelor of Environment: Geography and Environmental Management

2015-09 - 2021-08

*University of Waterloo - Waterloo, ON*

## Certifications

### Modern JavaScript from The Beginning – Udemey Certificate

2022-07 - 2022-08

Learned fundamental JavaScript Web Development patterns, Document Object Model (DOM) manipulation, Asynchronous Programming techniques with Ajax, Fetch API, Callbacks, Promises, and Async/Await. Became familiar with Error Handling using Try/Catch code blocks, Regular Expressions, and Client/Browser Web Storage using Local Storage, Session Storage, and Cookies.

## Skills

**Capabilities:** Responsive and Mobile-First Web Development & Design, Front-End Web Development, Full-Stack Web Development, and UI/UX Design.

**Languages:** JavaScript ES5+ (JS), TypeScript, Cascading Style Sheet (CSS), HTML5, Python, SQL (Oracle), and JSON.

**Frameworks/Libraries:** React.js, React-Router, React-Spring, Express.js, Context API, Framer-motion, Green Sock (GSAP), Tailwind CSS, Bootstrap, Lodash, and Jest for unit testing.

**Tools:** Node.js, Node Package Manager (NPM), SASS/SCSS, CSS Animations, AJAX, Firebase, Version Control (Git/GitHub), MongoDB, ESLint, Postman, Figma, Adobe Photoshop, and Notion.

**Other:** Music Production, Digital Audio Workstations, Microsoft 365, and Geographic Information Systems (Arc GIS).
